THE WHITE HOUSE
WASHINGTON

September 27, 1966

Dear Friends:

How we all enjoy having the unique and meaningful "Plate of Brasse" plaque in our home.

What gift could be more appropriate at the dedication of Point Reyes National Seashore than this item, which speaks so eloquently of the dramatic setting from which it came -- relating facts of the exciting heritage which this history-filled area has enjoyed through the years.

The President joins me in sending deep appreciation and very best wishes.

Sincerely,

Lady Bird Johnson

Mrs. Lyndon B. Johnson
